14 days Caribbean Adventure

Leeward/ Windward Islands

The last leg of our Caribbean Voyage brings us south following the NE trade winds as we explore the Lesser Antilles. Join us as we make our final memories on this adventure in paradise.

“Fair winds and following seas”. Without a strict schedule we can enjoy the moment and follow the wind.

Come sail with the Haynes family! Great memories are made are made by stepping out of your comfort zone and sharing new experiences with great people!

There will be so many factors that will influence our day to day schedule. The wind that freshens up for a nice sail, the fish that is caught for the perfect evening BBQ, or we just fall in love with a quiet bay. We have allowed plenty of time to enjoy and appreciate the islands.

Our final leg begins with a memorable airplane landing over Maho Beach in Saint Martin. From there we will follow the trade winds south, spending 14 days exploring the diverse Lesser Antilles island chain and the sparkling blue waters of the Caribbean.

Witness the colourful tropical vegetation in lush national parks and explore the magic underwater world in marine protected areas. Experience a taste of the highlife or spend lazy days on one of the many beaches. With the stable NE trade winds of 15 to 20 knots there should be plenty of opportunity to have some amazing sailing.

Saint Martin & Sint Maarten:

The famous Maho beach where people flock to experience the famous airplane landings

Saint Barthelemy

An escape destination for the rich and famous. Gustavia tiny streets are lined with posh boutiques and restaurants. Luxury yachts line the marina and the bays. The famous Nikki beach is a hotspot for beach goers and cocktails. \$\$\$

Saba:

This impressive volcano rises from the sea. Probably the reason that it was used as 'Skull Island' from the 1933 original King Kong movie. Unforgettable marine life is hidden below the waterline. Colourful corals, tropical fish, turtles and even sharks.

Sint Eustatius (Statia):

Priding itself with ecotourism (STENAPA), the Quill is home to over 35 endangered or rare species and is overgrown with tropical rainforest. The real treasure lies beneath the surface of the water though. Its protected Marine Park is a diver's paradise.

Kitts & Nevis:

This pair of islands offers everything from the impressive Brimstone Hill Fortress (UNESCO), a round of golf, to rum punches on the beach and impressive landscapes and tropical vegetation.

Dominica:

Venture through the rainforest in this UNESCO World Heritage National Park whose dramatic landscapes are home to the Boiling Lake, Trafalgar Falls, Ti to Gorge, and Champagne Reef.

Martinique:

With its unique Creole Cuisine and Rum Agricole, this 'Island of Flowers' is a cultural must see
